## 1. OVERVIEW

The Alcohol. Think Again Pride Cup is a one-day social volley event that promotes LGBTQIA+ inclusion and acceptance in the volleyball community. This event is proudly supported by Healthway and the Alcohol. Think Again message. <https://alcoholthinkagain.com.au/>

Volleyball WA recognises that excluding people from participating in sporting events and activities because of their gender identity may have significant implications for their health, wellbeing and involvement in community life. We are committed to supporting participation in our sport on the basis of the gender with which a person identifies.

These Competition Regulations are designed to make this competition run smoothly and fairly. Any queries prior to the event should be directed to the VWA Participation Manager at [participation@volleyballwa.com.au](mailto:participation@volleyballwa.com.au). ## 5. PLAYING CONDITIONS

A minimum of 3 matches is guaranteed for all teams in all divisions.

All matches are played according to a time limit unless otherwise indicated. There will be **40 minutes** playing time and **5 minutes** for warm up.

All matches are best of 3 sets. Sets 1 & 2 are rally point to 21 points (uncapped) leading by 2 points, with the 3rd set (if required) being rally point to 15 points (uncapped) leading by 2 points.

If the set score is 1:1 at the time limit the match will be determined by the point score of the unfinished 3<sup>rd</sup> set. The team that has an advantage of 1 point or more will be awarded that set and the match. In pool matches, if scores are tied at the time limit the match will be considered a draw. In finals matches, if the scores are tied, teams will continue playing to a 1-point advantage to decide the winner of the game.

If the 2nd set is not completed at the time limit it does not count and the match will be awarded to the team which won the first set.

## 6. TIME OUTS

Only one time-out is allowed per set per team. However, NO time-out will be allowed in the last 5 minutes of playing time.

## 7. TEAMS LATE TO COURT

After the referees have called the teams for the start of a game, if six players are not present the following applies;

- The game can be played with four players.
- The game will be forfeited after 5 minutes if five players are not available to play. A score of 21-0, 21-0 will be awarded to the opposition team.

## 8. POINTS SYSTEM

Pool teams will be ranked based on the order of the following;

1. Matches percentage (matches won divided by total matches played)
2. Sets percentage (sets won minus sets lost divided by total sets played)
3. Points percentage (points won minus points lost divided by total points played)

Please note: Only for complete and/or counting sets

## 9. FINALS FORMAT

Divisions with one pool will not have a semi-final game. Only a final game will be played.

## 21. ALCOHOL. THINK AGAIN

Alcohol may not be consumed at events. No player is to participate in an event while under the influence of alcohol or any other banned substances. Failure to comply will mean disqualification from an event and possible further sanctions may be imposed.

The Alcohol. Think Again campaign aims to decrease alcohol-related harm by reducing short-term

and long-term harmful drinking.

The Alcohol. Think Again campaign is the community education and marketing component of the Western Australian Government effort to reduce the impact that risky alcohol use has on our community. Alcohol. Think Again aims to reduce the level of alcohol-related harm that results from drunkenness by changing the drinking culture in Western Australia to support safer drinking environments and practices.

Research tells us that even with the best intentions, it can be difficult for responsible drinking to take place, if getting drunk is the accepted norm, there is social pressure to drink and the setting makes it easy to drink large amounts.

Changing our (community) acceptance of drunkenness and the problems that go with it is one of the most important parts of creating a less harmful drinking culture. To begin this change, the main strategy of the Alcohol. Think Again program is to use media and other information mediums to explain the problems related to the binge drinking culture and raise awareness about what causes these problems at a community level, rather than just focusing on the individual drinker.

Characteristics of drinking environments, community attitudes to drunkenness, the availability of alcohol, how alcohol is supplied, role-modelling, and alcohol advertising are just some of the factors that influence the drinking choices people make. These factors are also contributors to levels of alcohol-related harm and problems within the community. For more information go to [www.alcoholthinkagain.com.au](http://www.alcoholthinkagain.com.au).
